

The background of the cover is a deep red with a fine, pebbled texture. A large, stylized white musical staff curves from the top left towards the bottom right. It features several musical notes, including a large eighth note at the top, and various accidentals (sharps and flats) scattered around it. The title "The Bruin 1950" is written in a white, elegant script font, following the curve of the staff.

School days, school days,

 Algebra, Latin, Trigonometry,
 Hand-holding, cute jokes, "giggle" ometry,
 She is his gal, and he's her beau,
 At least for a week—then another "Joe."
 We're in our teens,
 Those drug store fiends,
 When we are in ole New Bern Hi.

SENIOR CLASS SONG

"Thanks for the Memory"

Thanks for the memory of tramping through the halls,
The rushing into class,
The look the teacher gave us as we hurried to dash pass,
How happy we've been.

Thanks for the memory of football games we've won,
Their joy and the fun,
The pleasure we have in knowing that our job has been well done
We seniors thank you so much.

Thanks for the memory of the past four years we've spent,
We've been happy and content,
Throughout the halls our happy notes of gratitude we've sent,
We'll miss it all now.

"SENTIMENTAL JOURNEY"

While on the way to the Metropolitan Opera House, in a Crosley cab driven by John Hargett, to hear Clifton Cayton, the world renown tenor, who had stopped on one of his numerous tours, I heard a special news flash on the radio by the world famous commentator, Harry Shriver, announcing the 11th Annual Home-coming Dance for the Class of 1950.

After selecting Laurence Tibbett, one of Clifton's understudies, to pinch hit, I immediately called Pat Talbot, receptionist at the Floyd Taylor Airlines, Inc., for reservations to New Bern, N. C. While riding down Broadway enroute to the airport, we stopped for cokes at Skinner's Soda Shop and informed Herman Harrison, the manager, and Mark of the reunion. In the soda shop we watched Mickey Gunnensen perform her ballet dances on a television screen, newly revised by Houston Whitty. The program was interrupted by another news bulletin announcing that Jimmy Brown and Ed Hill, coaches of the Duke Blue Devils, had already arrived at N. B.

After arriving at the airport we boarded the plane, piloted by Floyd, and were made comfortable by Jean Pierce, our Hostess.

Because we were late in getting started, we changed plans and made up for lost time in a Hoke jet designed by our own "pretty boy" Forney.

Our first stop was Washington, D. C., where we picked up June Boyd, the Admiral's wife, and Senator Swindell (lucky Hardy, he's really gone places since leaving ole N.B.H.S.).

As we were leaving for the airport, we met Sara Blaylock, a modern Hedda Hopper, hurrying to get her society column to Connie Ormsby, editor of the *Washington Gazette*. They joined us and we continued on our journey.

We arrived in Norfolk, Va., and were escorted from the airport to town by Glenn Eure, the motorcycle-cop. He took us to the De Paul Hospital where we picked up the nurses Betty and Teresa McSorley and the dentist, John Bengel. While there we received a cable, efficiently carried by Harold Jones, informing us that Carolyn Liverman, manufacturer of "Willie's," the newest model Hudsons, was driving down from Detroit with Jane Jordon the famous fashion designer and Carleen Chalk, Metro-Goldwyn-Mayer's hair stylist.

Another of our stops was in Suffolk where we found Bobby Sasser owner, manager and star salesman of the clothing store Sasser and Co. In his employment he has Adair Grant, Ass't Manager, and Tommy Lyerly, window dresser.

To pick up Rex Williams the manager of the combined oil companies of the nation, we stopped in Elizabeth City. While there we visited the high school and attended a concert of the school band under the direction of Bob McIntyre.

In Asheville we were greeted by George Carberry, proprietor of the local rest home and Barbara Benninghoff, doctor of the establishment. Our conversation was interrupted by the ringing of the telephone and the report from the operator Peggy Hill, that Jack Carden, major league baseball player, had arrived in the fair city with his better half, Peggy Lee.

As we drew nearer to the old homestead another flash came over the short wave radio announcing that Betty Jean Harris II, and Ann Ipock famous society women in the theatrical world were arriving in their own private plane.

We arrived in Charlotte in a matter of minutes and picked up Ben Gilliken, chief engineer for the Duke Power Company. (He's gone a long way from Fagan's, hasn't he?)

Near Charlotte, at Davidson College, we secured Richard Banks, professor of Mathematics. From Davidson we journeyed to Monroe and found Sidney Epperson still singing bass.

Another flash brought to our attention the fact that Jean Campen, teacher at Mars Hill, had arrived for the get together.

We ventured further and arrived in Fayetteville where we found Joe Jones, owner of Jones Truck Line, changing a tire. Joe has in his employment Ella Koonce, secretary, Alice Conners, receptionist, John Scurlock, body designer and Alton Lamn, chief truck washer.

In Raleigh we were met at the airport by City Manager Craig Barnhardt and learned that Robert Ewell ran the picture projector at the Ambassador Theater. Betty Higgins is chief popcorn girl. We also found that Fred Taylor was coaching football at State and the former Shirley Salter is there also, coaching girls basketball.

In order to get into the main part of town, we boarded a bus driven by John Norris. While at the Capitol, we saw Georgia Moore playing her ukelele. She had just returned to the states from Hawaii.

After eating lunch at the M & E Restaurant, jointly owned and operated by Mary Posta and Enrico Hamilton, where Gene Wallace is chef and Zilda Small head waitress, we returned again

to our plane. On the way to the airport we saw Tommy Coston hitch hiking. After stopping for him we continued on our way.

In Goldsboro we learned from Nevin Leary, guide of the city that Barbara Riddick was designer at Weils Dept. Store. Betty Jean Harris is manager of Women's Apparel at Penny's.

At the dancing studio, Faye Smith teaches Arthur Murray's dancing in a hurry. In the same town we learned from a nearby police station that Corkey Wheeler was running the ABC Store (out of business).

At this point in our journey we received a wire from the luxury liner "Princess D" that George Smith, President of Oxford University, was aboard ship with Dot Jefferson typist and Barbara Pulley interpreter. Joe Latham just set a new world record by swimming behind the liner.

Continuing onward we arrived at Keanston where we met Jean Williamson who told us of her success in the used car business. Doris Winfield is her stenographer. Roy Cahoon is well established there in the produce business.

For a change of atmosphere we decided to take a train engineered by James Muse—John Trader shovels coal for the engine.

In the outskirts of Keanston we spied Ralph Game the game warden, who has his residence in Cove City.

Only a few miles further down the highway we read a sign "Al Dixon's Chicken Farm."

At this time a wireless was delivered to us by Alton Davis, train conductor, stating that Jean Collins, housemother at State, was due to arrive at any minute in N.B. by bus. By means of this cable we also learned that Johnny Ausley, mortician, had accidentally buried alive Jimmy Lingman, heavyweight boxing champion, but due to the expert work of O. V. Rowe, fire chief, he was uncovered in time to avoid disaster.

We stopped in Trenton and found Ebe Ipock and Aileen Edwards instructing golf on the green.

On the way to Jasper we looked up and saw Neil Armstrong on a telephone pole repairing lines.

Out in the wide open spaces we found Bessie Heath and Laura Wynne digging spuds. They're providing them for the reunion banquet.

Jerry Dobson, world famous high diver, had just jumped off the sky scraper on Elks Temple Corner into a wet dish cloth.

On the outskirts of New Bern we found Frances Ruddock milking cows. We were informed by her that Clara Powell has established permanent residence at E.C.T.C. raising hogs.

Margaret Sadler had just won first prize at the county fair for her preserved persimmons (Gerads favorite).

Before going to the Hi-school we decided to take a look at the city and see what changes had been made.

We discovered that Kenneth Booth was construction engineer for the Neuse River Bridge that was still under construction. We learned that Joyce Morton was manufacturing Salt in Utah.

Joan Dart met us at the Eubanks Bus Station, owned by Joe, where Hilda Dickens is employed as his bookkeeper.

Upon arrival at the banquet we learned of many of our old class mates from whom we had not heard since 1950.

Elizabeth Lee is teaching school in none other than N.B.H.S. (Typing.)

We were very excited to learn that Billy Mason is again drawing plans for a high school. Billy's motto is "if you don't succeed in ten years, try for twenty." Jack Burnette is keeping up the repairs on the historic landmark.

Dorothy Hawkins and LaRue Holton are welfare workers in Craven County. There have really been improvements made.

Zelma Paul, as you probably already know, is part owner in Morton Motor Co. The business has expanded so much that they have employed three stenographers: Ruth Murray, Helen Malpass and Polly Watson.

We were shocked to learn that Sarah Tisdale was neither a florist nor a house mother at Wake Forest. She designs clothes for the Parasian and we understand that after the reunion she will go to Paris to study further in this vocation.

The Banquet was really not complete due to the absence of Rodney Smith. Poor boy, he still works part time at Clarks. He and his band, "Rodney's Hot Rods," did however get there in time to play for the dance.

The reunion was a great success and you can now understand what a great influence N.B.H.S. has been in the class of 49-50.

Freshman Song

(Tune of "I'm a Big Girl Now")

We're big kids now,
We want 'ta be treated like we're big kids now,
Our grammar school experience drives our teachers mad,
At least we are in high school and we sure are glad!
We're tired of being told we're young.
It makes us mad,
We're big kids now.

ORGANIZATIONS

Philip Jordan

"TOGETHER"

We work for the school, together,
Our money we pool, together,
We better the rule, together,
And we feel apart of our High School's heart.
We often may full, together,
But we'll "patch-up or bust," together,
Tho we may not agree,
Good friends we'll always be,
Over-come our difficulty, together.

MUSIC TRAIN

(Tune of "Mule Train")

Music train! Beatidy-bopidy through
the wind and rain.
Seems as how they'll never stop!
Beatidy-bop, beatidy-bop
Beatidy, beatidy, beatidy bopping
along.

Music train! "Smitty" pounding notes
into our brain
Yet we always sound the same,
Beatidy-bop, beatidy-bop
Beatidy, beatidy, beatidy, bopping
along.

Music train! "Fitzy" trying hard our
feet to train,
Marching at the ole ball game.
Beatidy-bop, beatidy-bop
Beatidy, beatidy, beatidy, bopping
along.

Music train! Notes a flying over hill
and plain,
Singing, playing, once again!
Beatidy-bop, beatidy-bop
Beatidy, beatidy, beatidy bopping
along.

TOO MUCH HAPPENING ALL THE TIME

(Tune of "Stormy Weather")

*Don't know why
Every week that passes by,
There's something happening,
Our pocket books are steadily flattening,
Every week a special feature—
"No homework once again, teacher,"
Too much happening all the time,
The time,
Too much happening all the time.*

READ THIS . . . before you decide on your profession

Do you like children?

Do you like to feel you're helping them develop, helping them build their lives and their futures?

Do you like facts and ideas . . . like to absorb them and add to your intellectual stature?

Do you like to feel you're taking part in the progress of your community, your state, your country — and the world?

Do you have imagination? Poise? Patience and understanding? Good health and normal energy?

If you can answer "yes" to these questions, the chances are good that you have a talent for teaching.

During the next few years, 230,000 teachers — over and above those required to fill normal vacancies — will be needed in our schools.

There is a special need for teachers in elementary grades . . . and there will be an even greater need during the years ahead.

Your place may be in this highly honored profession — look into the possibilities today.
